**DETAILED ACTION**

***Election/Restrictions***

1. Applicant's election without traverse of claims 1-10 in the reply filed on 8/9/04 is acknowledged.

***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-3 are rejected under 35 U.S.C. 102(b) as being anticipated by Neuhaus et al. (U.S. Patent 5,296,181).

Neuhaus et al. disclose a method for manufacturing a vehicle body panel, comprising: applying a plastic film onto a reverse side of a film-like exterior covering; hardening the plastic film; and applying a back-foamed layer on top of the hardened plastic film, wherein the film is applied by a spraying process, wherein the step of applying the back-foamed layer comprises: applying liquid plastic onto the plastic film after the hardening step; and foaming the liquid plastic to form the back-foamed layer on the plastic film (Col. 5, lines 34-51).

***Allowable Subject Matter***

4. Claims 4-10 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
